LONGEVITY CARE SYSTEM

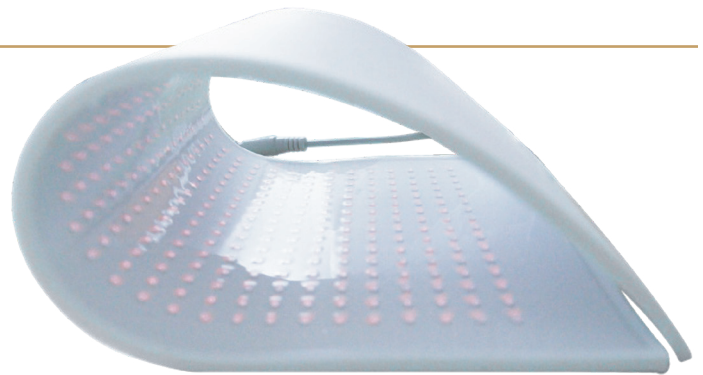

Abdomen Photobiomodulation (PBM) Irradiator

Specifications

Power	Input, 110V ~ 230V 50 ~ 60 Hz Output 23v 5A
Weight	Total 380g
Measurements	Length 40cm, Width 20cm, Thickness 6mm
Operation	30-60 minutes
Light irradiation intensity	Set of 8 steps
Irradiation applied range	Abdomen, waist, shoulders, pelvis, knee
Wavelength spectrum	Near-Infrared (850nm) and Infrared (940nm)
Chip quantity	544 total
Frequency Type	8 different modes, including frequency cycling utilizing all 7 Nogier Frequencies based on the individual's needs
Pad material	Medical Optical Silicone
Authorization	US FDA registered, European CE certification, KC, RoHS hazardous substance safety certification
Electrical Specs	15 AMP 110V

Warranty

1 Year Parts & Labor
